

# THE GREAT OCEAN-CLIMATE TALK SHOW

## *Power the Ocean Breakthroughs*

Sunday 27 October, 1:30 - 2:30 PM | KMGBF Pavilion, Blue Zone

**Get ready to make a splash on The Great Ocean-Climate Talk Show! We'll explore ocean-based solutions that could tackle climate change, stop biodiversity loss, and give the economy a major boost. Did you know they can reduce emissions by up to 35% by 2050? Dive in with us as we explore these Ocean Breakthroughs that just might be the key to a sustainable future. Don't miss it!**

### KEY ELEMENTS

In this episode, we will dive headfirst into the transformative Ocean Breakthroughs! Across five sectors – marine conservation, ocean renewable energy, shipping, aquatic food systems and coastal tourism – these Breakthroughs are paving the way for a net-zero, resilient, and healthy planet. The fundamental question is: What must we achieve by 2030 to transform how these sectors operate and realise this vision by 2050?

In the first segment, five contestants will pitch their Breakthrough and highlight how their sector can achieve key targets from the GBF while driving real progress on climate objectives. Watch as they bring these critical sectors to life, showing the path to living in harmony with nature – delivering meaningful benefits for Nature, Climate, and People.

The mic will then be handed over to our in-house guest stars: the public. Governments, businesses, civil society, all present will be invited to question our contestants and share their innovative thoughts and strategies to bring these Ocean Breakthroughs to reality. From cutting-edge finance solutions to scientific research and policy reforms, all are invited to reveal their levers that can propel these key ocean sectors forward.

# PROGRAMME

## SETTING THE STAGE

**LORELEY PICOURT**  
Executive Director, Ocean & Climate Platform

## PITCH YOUR OCEAN BREAKTHROUGH

**IGNACE BEGUIN BILLECOCQ**  
Ocean & Coastal Zones Lead, Climate Champions Team

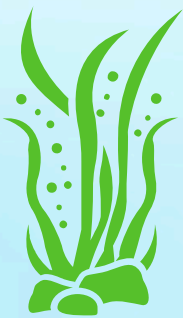

**ANNIE MARK**  
Senior Director, Global Partnerships, EDF

**RENNIE MEYER**  
Global Ocean Policy Lead, Ørsted

**SIMON CHIN-YEE**  
Researcher, University College London

**VICTOR GALVAN**  
Head of Nature-based Solutions, Iberostar Group

Animated by **PAULI MERRIMAN**  
Head of Policy, Global Ocean Practice, WWF

## ON THE GRILL

Live interventions from the public

## NEXT SHOWS: FROM COP29 TO COP30

**LORELEY PICOURT**  
Executive Director, Ocean & Climate Platform
