

TUESDAY 22 OCTOBER
3.30-5.00 PM (COT)

BLUE THREAD: ALIGNING NATIONAL BIOVIERSITY AND CLIMATE STRATEGIES

CHILE PAVILION,
BLUE ZONE

BLUE MARINE
FOUNDATION

OCEAN & CLIMATE
PLATFORM

PML | Plymouth Marine
Laboratory

The Nature
Conservancy 

UNSW
Centre for
Sustainable
Development Reform

PROGRAMME

The science is clear. The 1.5°C target of the Paris Agreement cannot be achieved without healthy ecosystems, and conversely, stopping the decline of biodiversity under the Global Biodiversity Framework will not be possible if climate change impacts are not rapidly mitigated. Ocean-based solutions operate at the nexus of these intertwined challenges, acting as a bridge across the Climate and Biodiversity Conventions.

OPENING

DAVID OBURA

Chair
IPBES

SETTING THE SCENE

MARINE LECERF

Head of International Policy
Ocean & Climate Platform

ROUNDTABLE 1

MADHU RAO

Chair
IUCN World Commission of Protected Areas

RENNIE MEYERS

Global Ocean Policy Lead
Ørsted

ANDREAS HANSEN

Global Ocean Policy, Policy and Public Funding
The Nature Conservancy

ROUNDTABLE 2

[TBC] REPRESENTATIVE FROM CHILE

[TBC] REPRESENTATIVE FROM FIJI

ISABELA CHAUCA

Biologist, National Institute of Oceanography of
Mozambique, Ministry of Seas and Fisheries, Mozambique

CLOSING REMARKS

ANA PAULA PRATES

Head of Director of Ocean and Coastal Management
Ministry of Environment, Brazil

MODERATED BY PAULI MERRIMAN

Head of Policy
Oceans Practice, WWF
